The Galapagos Islands are a famous, exciting place. Pirates, whalers, and scientists have all been amazed by the wonders there. Many rare plants and animals live in the Galapagos. They help scientists learn about life on Earth. We will get to know the unique animals, plants and landscapes of the Galapagos. We will draw and paint the diversity of life on this amazing archipelago. We will use pencils, charcoals, soft pastels, oil pastels, watercolor, acrylic on canvas, and 3D sculpture from clay.

Galapagos Tortoises
