

Enrichment Programs

6:30 PM to 9:00 PM

Accelerated Reader

Located outside the Library

Art Smart

Beautiful art collections created by the students are displayed downstairs throughout the first floor wings and hallways. These projects are created with parent volunteers using the PTSA sponsored Art Smart program.

Math Adventures

Visit the Art Room B101 to experience the Math Adventures enrichment program. We will have many of our games out for you to play with your kids. They can even teach you how to play their favorites. We have many kids that have become masters at these math and strategy related games, so be prepared for a challenge! We can also suggest fun MA games to play during summer break and provide information if you are interested in joining our wonderful group of MA Parent Volunteers next year.

Passport Club

Come check out this year's new enrichment program, Passport Club. Students have spent the year learning the locations of the countries of the world. Come see what these passports are all about and learn more about how your kids can and are participating in the program. Up for a challenge? We'll have maps displayed and you can test your own knowledge. Join us for a night of exploring geography and celebrating all your kids have learned! We'll be located in the gym area.

Thank You

Many thanks to Mrs. VanBlaricom, Mrs. Dean, Mrs. Myers, and all the teachers, parents, students, and PTSA members who made these programs and this event possible.

Programs Sponsored by the Rosa Parks PTSA
