Children love to draw. That's really good news, since drawing has such a positive effect on so many other subjects. What could be more fun than seeing a picture appear at the end of your pencil, and seeing a blank piece of paper turn into a work of art? We show kids how to do just that. Not just pleasing splashes of color, but real illustrations that are satisfying to the child. Not just repeating the same pictures, but showing definite and noticeable improvement week after week. The trip from stick figures to beautifully illustrated pastel drawings is not as long as you might think. And kids have a ton of fun along the way. See some examples in the galleries at <http://artwizards.org>. We are to drawing what phonics is to reading.

Please note: For safety purposes, one PTSA Parent is required to stay during each class. If you are able to volunteer, please indicate so on the form. If we do not have enough volunteers, we will be forced to cancel the art sessions and your payment will be refunded.
